

# Sales Agent Performance Comparison

We have 3 sales agents. We want to order them by the amount of total sales executed by each one of them.

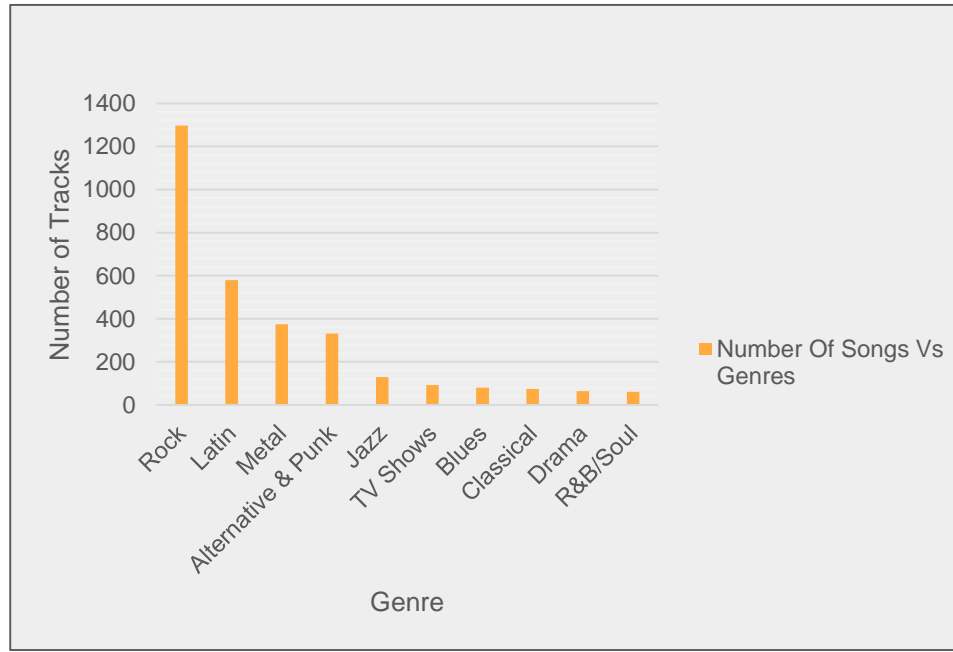

The visualization shows each agent and the amount of sales that were directly related to him/her.

# Top 10 grossing Albums

This chart includes the top 10 grossing albums ranked from the highest grossing to the lowest

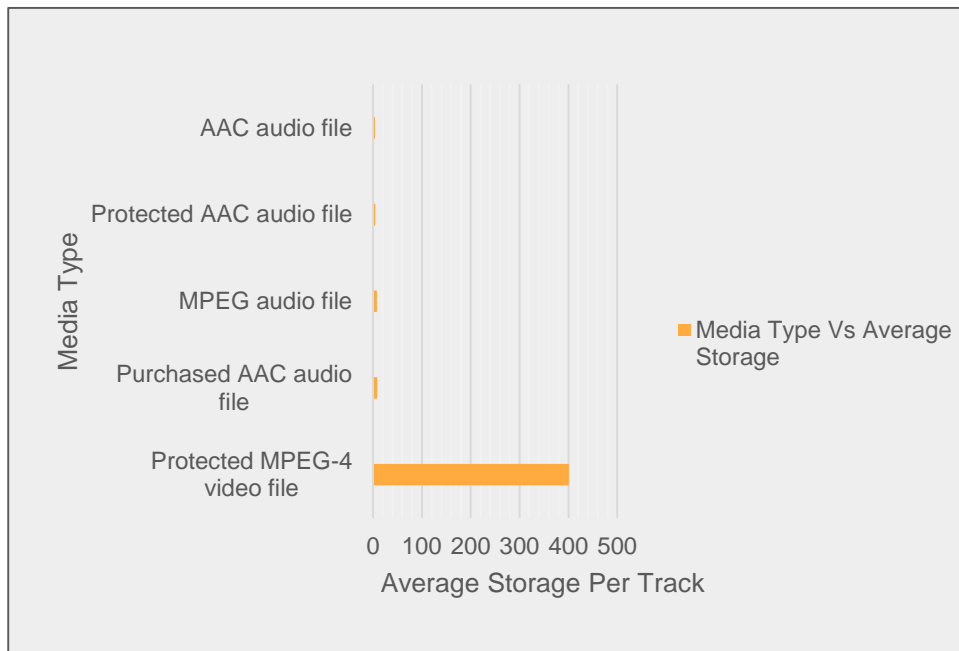

# Top 10 Genres (Based on number of songs)

In this visualization we are showing the top 10 genres ranked from the largest number of songs to the least.

It is obvious that Rock songs are the most popular

# Average Storage Space Comparison

In this slide we compare the average track storage for each media type (in MegaBytes)

The video media storage “Protected MPEG-4 video file” was excluded from the visualization as it was nearly a 100 times more than the lowest type (more than 400 MBs)
